

# INTEGRATE

Your Primary Source Verification Process

Add the power of ABMS Direct Connect *Select*<sup>™</sup>  
to your electronic credentialing system

Expanded search capabilities  
now include physician NPI and  
Active State Licensure

- Meet Primary Source Verification (PSV) for board certification of physicians
- Display board certification effective and expiration dates, complete physician certification history, and ABMS continuing certification (MOC) program information
- Query for multiple providers without stopping other program activities
- Retrieve and store information for current and future credential verification purposes
- Pre-populate fields in your credentialing software database to simplify workflow

## Seamless integration of ABMS Primary Source Verification data

Adding ABMS Direct Connect *Select* into your workflow gives you direct access to the ABMS database of board certification information on more than 880,000 physicians certified by the 24 Member Boards of ABMS.
